On a Mission to Restore Patients’ Quality of Life

Neck-to-Toe, the Four State Area’s Largest and Most Comprehensive Orthopedic Care Group and Facility

Orthopedics • Sports Medicine • Spine Care • Joint Replacement and Revision

Physical Therapy • Aquatic Rehabilitation • Interventional Pain Management
WELCOME TO ORTHOPAEDIC SPECIALISTS OF THE FOUR STATES (ORTHO FOUR STATES) ON A MISSION TO RESTORE PATIENTS’ QUALITY OF LIFE

Unlike the hospital system, Ortho Four States was founded and is operated by Fellowship Trained and Board Certified orthopedic doctors and surgeons focused on a mission to restore patients’ quality of life. Each with their own area of orthopedic specialty, Ortho Four States’ physician-architects came together to collectively forge a master plan to build a patient-centered practice and full-service orthopedic facility.

A CALIBER OF CARE EXPECTED FROM THE NATION’S TOP FACILITIES

Designed for total comfort and convenience, Ortho Four States’ spacious facility offers full-service and easy-access orthopedic, spine, sports medicine, joint replacement and revision, physical therapy, aquatic rehabilitation, and interventional pain management all on one campus.

- Physician offices
- Two MRIs (area’s largest supine and upright weight-bearing)
- Premier Imaging Center
- Physical Therapy and Aquatic Rehabilitation (two HydroWorx pools)
- Durable medical equipment (braces and wraps)
- Pharmacy
- Stateline Surgery Center (outpatient)
- Premier Surgical Institute Hospital (inpatient and outpatient)
- Red Onion Restaurant and Cafeteria

For added patient convenience, we also have satellite offices in Bentonville, Arkansas; Pittsburg, Kansas; Carthage, Missouri; and Grove, Oklahoma.
A Compassionate, Patient-First Approach to World-Class Orthopedic Care

Uniquely Structured to Maximize Patient Benefit, Convenience, and Choice

From medical treatments and physical therapy, to non-surgical and minimally invasive procedures, to the most challenging musculoskeletal surgeries, our doctors, physician assistants, nurse practitioners, athletic trainers, and physical therapists work together to provide patients and their families with individually created care plans targeted at correcting and eliminating the pain and suffering caused by injuries and disorders of the bones, spine, and joints.
